

Guest List

Fill this paper out with the names and phone numbers of everyone that you know! If you really brainstorm, you will realize that you know a lot of people!! You don't want to forget anybody, because your party is going to be a night to remember! I will email you an invitation, print them out and mail them to your guests or hand them out. You can also refer to this list when you call to remind your guests a few days before the party. Remember, the more people that you invite, the more FREE stuff that you will receive. I can't wait to meet everyone on this list!
